Document Body

Hello Mr. Hamm:

You called me regarding the contamination and environmental cleanup going on at Treasure Island, specifically regarding asbestos and radiation. I hope I was able to answer your questions. To follow up, I wanted to provide some web links.

The Navy has posted some documents online that might be helpful to you (scroll down to find the environmental documents and fact sheets):

http://www.bracpmo.navy.mil/basepage.aspx?baseid=44&state=California&name=treasure_island

The document that describes the environmental cleanup sites and contaminants is the Site Overview. This document includes a discussion of the Asbestos-Containing Material (ACM) Program and the Radiological Program. The Site Overview document is available online through the Navy's page:

http://www.bracpmo.navy.mil/base_docs/treasure_island/documents/enviro_docs/FinalTI_SiteManagementPlan2010.pdf

As I mentioned, I no longer manage the Treasure Island site for EPA. If you have additional questions, I am happy to direct you to the new project manager or try to answer them.

Happy Holidays!

-Christine
